

**The BCG vaccine
protects babies from
tuberculosis (TB)**

**TB can make babies very sick.
The BCG vaccine helps protect them.**

**Is your baby at
higher risk?**

Your baby may need the BCG vaccine if your family has links to countries where TB is common.

Talk to your GP or public health nurse today and ask:

**“Does my baby
need the BCG
vaccine?”**

The BCG vaccine protects babies from tuberculosis (TB)

TB can make babies very sick.
The BCG vaccine helps protect them.

Is your baby at higher risk?

Your baby may need the BCG vaccine if your family has links to countries where TB is common.
