

Domestic, Sexual and Gender-Based Violence (DSGBV) Services in Ireland

Know where to refer

Many specialist services are available in Ireland for people impacted by DSGBV.

Visit the [HSE DSGBV Service Directory](#) to quickly connect victims and survivors with the support they need.

Remember

Every person's situation is unique. Referrals should be based on the areas where the victim identifies they need support.

To build your skills in asking about DSGBV and making effective referrals, check out the HSE DSGBV Training Programme on HSELandD.
