

# BreastCheck

An Clár Náisiúnta Scagthástála Cíoch  
The National Breast Screening Programme

**Your risk of breast cancer increases with age.  
BreastCheck offers free breast screening to every woman  
living in Ireland who is aged between 50 and 69 years old.**

Breast screening involves taking a special x-ray of your breasts,  
called a mammogram.

If you're between 50 and 69 years old and have never had  
breast screening, you should talk to your GP or contact us.  
For more information about breast screening and to find  
out more about the risk factors for breast cancer, visit  
[hse.ie/breastcheck](https://hse.ie/breastcheck) or Freephone **1800 45 45 55**.
