

Know the signs

Find Kidney Cancer Early

The kidneys make urine (pee). They are near the middle of your back. You have two kidneys, one on either side of your spine. If kidney cancer is found early, it's easier to treat and there's a better chance of cure and recovery.

Call your GP TODAY if you notice any of the following

Blood in your urine

A lump or swelling in the kidney area

Feeling generally unwell

Pain in the side between your ribs and your hip or your lower back.

Unexplained weight loss

Feeling very tired all the time, more than is normal for you

Loss of appetite

Don't be scared Don't delay
